New	HSA3775: HSA Practicum A
New	HSA3780: HSA Practicum B
New	HSA3785: HSA Practicum C
New	HSA3790: HSA Practicum D

*Second Period Apprenticeship

Based on the new course outline for the Hairstylist Apprenticeship (HSA), there is no one-to-one correlation from the old HSA 1-credit courses to the new HSA 1-credit courses. Instructors should review the new Hairstylist course outline from Apprenticeship and Industry Training to ensure all outcomes are being covered throughout the completion of this pathway.

If the student has successfully taken the course or courses on the left (highlighted in green or blue), the student does not have to take the corresponding new course or courses on the right (highlighted in yellow). For example, if a student has successfully completed HSA3400: Hair & Scalp Care 1; HSA3410: Hair & Scalp Care 2; HSA3420: Hair & Scalp Care 3; and HSA3425: Hair & Scalp Care 4 – Client Services, the student does not need to complete HSA3431: Hair and Scalp Analysis; HSA3436: Shampoo and Condition Hair; and HSA3421: Consultation and Draping.

The instructor needs to verify that all courses listed on the CTS Course Completion Record, located on the [TradeSecret](#) website, have been instructed by an individual with journey person certification in the hairstylist trade (i.e., an individual holding a trade certificate recognized in Alberta).

Note: COS1010: Personal & Professional Practices is replaced by both HSA3406: Work Environment and HSA3426: Salon Operations. However, COS1010: Personal & Professional Practices did not have the depth or breadth of safety learning outcomes; therefore, all students are required to complete HSA3900: Apprenticeship Safety.

HSA3511: Drying Hair; HSA3516: Setting Wet Hair; HSA3521: Styling Wet Hair; and HSA3431 Styling Hair Using Accessories were content that was taught in first period courses in the old HSA pathway. The new course outline shows that this content is now in second period.

HSA Existing to New: Second Period
